Kolkata, The City of Joy (known as Calcutta till 2001), India's one of the largest metro city and once the capital (1772-1912) of British India, is the capital of West Bengal. Kolkata is located on the east bank of the Hooghly, a channel of the Ganges, 154 km upstream from the Bay of Bengal. Growing beyond its British colonial foundations, Kolkata assimilated strong European influences to create an amalgam culture that found early expression in the life and works of the 19th-century Bengali elite and its best known personality, Rabindranath Tagore. Kolkatans are said to possess a rare joie de vivre that manifests itself in their penchant for art and culture and a level of intellectual vitality and politico. This city, a flourishing metropolis, a beautiful blend of the vintage and the modern, the tradition and the innovation, began the era of cultural renaissance in India.

Kolkata is the main business, commercial and financial hub of eastern India and the northeastern states with a major commercial and military port and an international airport. Some famous places in Kolkata are Victoria Memorial, Howrah Bridge, Botanical Garden, New Town Eco Park, Mother Teresa House, Fort William, Dakshineswar Temple, Alipore Zoological Gardens, Kalighat Kali Temple, Eden Gardens, Indian Museum, Princep Ghats, Marble Palace, Belur Math. Popular Things in Kolkata are Bengali Food, Trams, Durga Puja, Kolkata Metro, Hand Pulled Rickshaw, Street Food and Bengali Sweets.

Kolkata has a tropical climate. The annual mean temperature is 26.8 °C (80 °F). Winter tends to last for only about two and a half months, with seasonal lows dipping to 12 °C – 14 °C (54 °F – 57 °F) between December and January.

Kolkata: A Quick View

THE INDIAN INSTITUTE OF METALS

The Indian Institute of Metals was formed in Kolkata in 1946 as an adequate body of professional metallurgists in India. The first organizational meeting was held on February 24, 1946. The institute was formally inaugurated on December 29, 1947 at the Royal Asiatic Society Hall, Calcutta. Late Shri Jahangir J Gandhi and Late DrDara P Antia became the first President and first Honorary Secretary respectively.

At present the IIM is spread all over India through chapters in all major important towns and cities with a large number of members with highest professional standards. It has grown into a reputed institution devoted to promotion and advancement in the study, practice and research of metallurgical science and technology. The Indian Institute of Metals is now recognized as one of premier bodies of metallurgy and material engineering throughout the world for promoting and advancing the science and technology of metals and alloys and protecting the interest of Metallurgy and Material Engineering professionals and industries.

The IIM membership is now broadened from metallurgy and material engineering to all personnel of other related branches of engineering working in the field of Metals and materials and related areas. The activities of the institute include organizing national and international conferences and programs, research and publications, conducting programs on development of skill, knowledge and enhancement of qualifications.
