**ORGANISED BY:**

**IN ASSOCIATION WITH:**

## Preamble:

We are delighted to invite you to the upcoming Indian Steel Conference: Significance and Role of Decarbonisation & Infrastructure Development. This event is scheduled for August 29-30, 2024, at the Mahatma Gandhi Kala Mandir, located at Civic Centre, Bhilai in the heart of SAIL BSP Township.

This prestigious two-day event is being organized by leading steel based global publication : Iron & Steel Review in collaboration with The Indian Institute of Metals, Bhilai Chapter, and The Institution of Engineers (India), Bhilai Local Centre.

The objective of this conference is to provide a common platform for showcasing & sharing information on decarbonization initiatives and latest innovations, technologies & developments for making steel rolls, coils, heavy steel plates, structural steel, TMT products and heavy structurals and their applications in various domains of sustainable infrastructure development in India.

In response to the pressing environmental concerns of our time, the conference will also delve into transformative methodologies and initiatives for low emissions. Key sessions will focus on the importance of decarbonisation, carbon capture, and utilization, underscoring how these efforts are crucial for the future of industry and our planet.

We warmly invite you to nominate delegates for this important event and to showcase your organization's contributions to the steel industry through advertisements and sponsored presentations. To facilitate broad participation, we have set a nominal delegate fee.

Your participation will not only enrich the discourse but also align your organization with the forefront of industry advancements and sustainable practices.

## Salient Points to be Discussed:

The steel plant's efforts in development and production of steel used for specific infrastructural applications

Identification of grades and quality of steel in urban construction sector

Significance of use of steel – various categories and shapes for Railway applications
