

DEMYSTIFYING INDUSTRY 4.0 Webinar Series 2022

Organised by

Indian Institute of Chemical Engineers
Calcutta Regional Centre

Sri Abhijit Kumar Mitra
Chairman

Indian Institute of Metals
Kolkata Chapter

Dr. Asim Ray
Chairman

Jadavpur University

Prof. Chiranjib Bhattacharjee
Pro -Vice Chancellor

Innovation Deficit

Description

Artificial Intelligence may increase the productivity of world economy. But it may have a larger impact by serving as an invention method that can reshape the innovation and R& D process of any organization. Companies have started acknowledging the power of AI and investing in the technology to gain an edge over competition. The expanding imbalance between digital endemic and digital sluggards is creating wide inequality in the world economy.. Today, the most advanced software, AI, machine learning, deep learning, these are all technologies that are available by the instillation in the cloud. Today, technology companies like Google and Amazon release software thousands of times a month, whereas traditional enterprises are still releasing software on an annual basis,. Companies and countries have an innovation deficit that they face. This innovation deficit is critical to the human future, critical to the future of business

Kundana Kumar Lal

Kundana is a global AI thought leader, an AI evangelists, and AI influencer. Kundana being a well-known global IT Delivery & Technology Professional and early M.Tech in computational intelligence is prominent in AI & emerging technologies such as computer vision, natural language processing, predictive analytics, anomaly detection, information retrieval, and robotics. He strongly believes that AI may impose an existential risk for India, and he's doing his best to not only propel but also democratize AI by establishing R&D oriented AI Innovation Hubs & Exchanges in collaboration with industry & academia but also designing & delivering innovative easy-to-grasp practical programs on multiple platforms. Kundana is well-respected Coach & Guru at Vitti AI. As a head of Vitti Research Foundation he is driving AI adaptation for public benefit and ensuring level playing field for India in upcoming AI disruption
