Announcement for the resumption of IIM Student Membership enrolment for appearing in AMIIM Examination

AMIIM (Associate Member of IIM) Examination introduced by IIM in 1962; was recognised by the then Dept. of Education (MHRD) of GOI in 1964, with declaration by Union Public Service Commission [UPSC] in 1968 of AMIIM being equivalent to Graduate in Metallurgical Engineering. IIM continued this hall-mark program till Nov. 2017, when AICTE declared that all such programmes run by professional bodies like Institution of Engineers & others are not recognised by MHRD of GOI.

After a halt of two years, the Competent Authority of **The Indian Institute of Metals** decided on resumption of fresh enrolment of this IIM Certified Course, with effect from 1st April 2020. The AMIIM Course would now be considered as an autonomous program, managed by our Institute.

Candidates with the following qualifications may join IIM as a Student Member for appearing in AMIIM examination.

A candidate with minimum 2 (two) years of industrial experience after passing the qualifying examination 10+2 (Higher Secondary or equivalent examination with Physics, Chemistry and Mathematics).

OR

Passed B Sc with any subject combination after passing 10+2 (Higher Secondary or equivalent examination with Physics, Chemistry and Mathematics. The candidate should also preferably be employed in a Metallurgical Concern.

OR

A diploma holder in any engineering/technical stream (of three year duration and recognized by AICTE/State Board of Technical Education/any competent Authority) after passing 10+2 with Physics, Chemistry and Mathematics as principal subjects. The Diploma holders with SSLC background should have at least 1 (one) year of industrial experience after passing Diploma Examination.

OR

BE/ B Tech holder in a stream other than Metallurgy from UGC / AICTE approved College.

N.B: Candidates may opt both for either Online or Offline enrolment via <http://www.iim-india.net>
