GC/Webinar/MIEEM/4/20

July 31, 2020

Dear Shri Saha,

We take this opportunity to cordially invite you to participate in the proposed Webinar being organised by Millennium Institute of Energy & Environment Management (a registered Society of technocrats, scientists, educationists and environmentalists) in association with The Indian Institute of Metals, Kolkata , The Indian Ceramic Society, Kolkata and CSIR-Central Glass & Ceramic Research Institute.

The Webinar is titled as : **Towards a Atma Nirbhar Bharat - Role of Applied Research & Technology in Core Industrial Sector** and is being scheduled in two editions on August 28 and September 4 (consecutive Fridays) between 3 30 p.m and 5 30 p.m. It will be hosted through a pre-defined web platform and shall be designed in form of a panel discussion with scope for interactions with fellow panelists and the invited audience (through a moderator).

The deliberations will focus on the effective measures being planned and adopted by your organisation to become self-reliant in terms of product innovations and application of indigenous technologies and support services in manufacturing cycles - with special focus on the core industries.

The live presentations can also include power point modes to supplement the deliberations and can be planned for 15 minutes followed by interactions.

We shall be grateful if you kindly confirm your participation in the panel for August 28 through mail.

We look forward to your support in our endeavours to implement the Atma Nirbhar Bharat initiatives announced by the Government to revitalise the Indian Industrial sector and the economy in the post Covid environment.

With best regards,

Yours sincerely,

(K. Muraleedharan)

Shri Kushal Saha
